Schedule B – Classifications

In determining the appropriate level, consideration must be given to both the characteristics and typical duties/skills. The characteristics are the primary guide to classification as they indicate the level of basic knowledge, comprehension of issues, problems and procedures required and the level of supervision or accountability of the position. The totality of the characteristics must be read as a whole to obtain a clear understanding of the essential features of any particular level and the competency required. The typical duties/skills are a non - exhaustive list of duties/skills that may be comprehended within the particular level. They are an indicative guide only and at any particular level employees may be expected to undertake duties of any level lower than their own. Employees at any particular level may perform/utilise one such duty/skill, or many of them, depending on the particular work allocated.

The key issue to be looked at in properly classifying an employee is the level of competency and skill that the employee is required to exercise in the work they perform, not the duties they perform per se. It will be noted that some typical duties/skills appear in more than one level, however when assigning a classification to an employee this needs to be done by reference to the specific characteristics of the level. For example, whilst word processing and copy typing are first specifically mentioned at Level 2 in terms of typical duty/skill, it does not mean that as soon as an employee operates a word processor or typewriter they automatically become Level 2. They would achieve a Level 2 classification when they have achieved the level of skill and competency envisaged by the characteristics and the relevant indicative duty(ies)/skill(s) of a Level 2. Level 1 in this structure is to be viewed as the level at which employees learn and gain competence in the basic clerical skills required by the employer, which in most cases would lead to progression through the classification structure as their competency and skills increase and are utilised.
