

# Sector Group Committee Candidate

## Luke Stambolis

### GENERAL CONTRACTING NOMINEE

**Luke Stambolis**  
**Probuild**

My name is Luke Stambolis and I currently lead the Probuild Constructions business. I have been in our local property industry (mostly in contracting roles and one as a developer) for over 23 years now. The journey I have taken so far involves working with a few of the Tier 1 contractors on some great construction projects both in Australia and the UK in which I was grateful to have spent time abroad in.

I'm passionate about our industry and I am constantly striving to make it more efficient and to make it easier for our younger people to enter our industry and stay in the game long term. I'm proud to have contributed to our local industry and whilst I know that it's up there with the world's best practice, I am acutely aware that our ecosystem needs good leaders and custodians to keep it world leading and to leave a legacy that would attract great people with great skills and culture.

Those who know me will tell you that I'm always looking forward in time for where we can take our industry next. In particular, I very much enjoy innovating building and business processes through lean thinking and practice as well as creative and data driven improvements through digitisation and tech. I work closely with our partnerships and supply chain to ensure that everyone benefits from our successes at Probuild.

I would be humbled and very committed to have the opportunity to make a positive contribution on the General Contracting Sector Group Committee at Master Builders Victoria. I look forward to working with some great industry leaders to ensure our industry prospers through its people and outcomes for the betterment of our clients and the state.
