

# MASTER BUILDERS VICTORIA GETTING ENERGY EFFICIENT RIGHT WEBINAR

GET YOURSELF READY FOR CHANGES TO ENERGY EFFICIENCY  
AND MEET YOUR OBLIGATIONS EFFECTIVELY

We have designed this workshop to provide an update on the Energy Efficiency provisions of the NCC 2019 for the residential housing and further changes proposed for the NCC 2022.

This workshop will present the results of a recent audit of building site energy efficiency compliance by The Department of Environment, Land, Water and Planning in partnership with the Victorian Building Authority.

This 90 minute workshop session will cover;

- Details of the VBA audits
- Non-compliance issues identified by the audit
- Your obligations in terms of paperwork, insulation, windows and building sealing
- Methods to easily meet your obligations and
- Latest methods in building energy efficient buildings.

## Topic areas will include;

### Paperwork

- The importance of installing what's specified.
- What to do if something varies?

### Windows

- Why are they so important?
- Installing what is specified
- What types are there and what are their features?

### Insulation

- Why is the correct installation so important?

### Building Sealing

- What does the code say?
- Methods to ensure air tightness

DATE:	Tuesday 26 May 4:00 - 6:30pm
VENUE:	Webinar
COST:	Members - Free Non-members - Free
