

# Sector Group Committee Candidate

## Richard Hansen

GENERAL CONTRACTING NOMINEE

**Richard Hansen**  
**Hansen Yuncken**

I have been honoured to be the President of Master Builders Victoria for the past 21 months and am extremely proud of the achievements of the organisation during that time. This year particularly, we have fought extremely hard to keep our industry open when there has been much pressure at various times to close. I seek election to the General Contracting Sector Group Committee as I continue to have a deep interest in and concern for matters that are most important to our members at the sector group committee level.

I want to see Master Builders Victoria continue to develop and evolve, using the collective knowledge and experience of our diverse membership base, ensuring the organisation is modern and relevant, financially strong, providing high standard of services to our members, and maintaining a strong and effective public voice. I have a lifelong passion for construction and my career extends over almost 30 years. I am a director and executive of Hansen Yuncken, a 102-year old, proudly Melbourne founded, fully Australian owned national business, with over a billion dollars of annual revenue and 650 employees.

I strongly believe that Master Builders Victoria is as important as ever as the representative voice for our industry, for small and large builders in the commercial and housing sectors. I encourage all in our industry to get right behind it. I seek your support for me to re-join the General Contracting Sector Group Committee, promoting the best interests of our members, Master Builders Victoria, and our industry.
