

Sustainable Construction - Commercial

Course Information Sheet

About the course

This course is delivered by **Master Builders Association of Victoria (RTO no 3935)**.

This **nationally accredited short course** provides builders and their contractors with the information, knowledge and skills to understand, build and comply with sustainability requirements in their workplace.

- Green Star rating system
- onsite waste management
- framing and structure and material selection and;
- water and energy conservation.

Students will complete their own environmental policy and management plan.

After successful completion of the 2-day course, participants will be awarded one nationally accredited units of competency:

- **CPCBC5011A Manage environmental management practices and processes in building and construction.**

Learning outcomes

Students will have gained the skills and knowledge to:

- comply with the demands of regulators and clients;
- be more confident when offering sustainable solutions to their clients;
- be more confident when responding to tenders that have sustainability requirements;
- better understand the building envelope – insulation, glazing, materials selection, embodied energy;
- better understand interior fitout – materials selection, embodied energy, indoor air quality;
- better understand and interpret laws and regulations associated with sustainability requirements and
- prepare an environmental management plan.

Who should study this course?

This course is suitable for:

- site supervisors
- contractors
- site workers; and
- commercial builders

Master Builders entry requirements

Due to the accelerated nature of this course, it is recommended that students have at least three years experience in the building and construction industry.

What you need to bring to class

You must bring a pen and a notebook to class.

In addition, you must bring evidence of entitlement to study in Australia to your first class (not necessary if you have already presented this to Master Builders).

- Photo ID

and ONE of the below:

- Original or certified copy of green Medicare Card OR
- Original or certified copy of Australian or New Zealand Passport OR
- Original or certified copy of Australian Birth Certificate OR
- Original or certified copy of Naturalisation document OR
- Original or certified copy of Visa or Immigration documentation.

Please note: You will not be able to attend the class until evidence of entitlement to study has been presented.

Learning support

Master Builders provides additional support to students who require assistance in completing their course assessments and requirements. A range of support services are available to students who experience literacy, numeracy and digital literacy difficulties.

IS YOUR BUILDER A MASTER BUILDER?

Master Builders encourages all individuals with disabilities to apply for training courses in accordance with the requirements of the Equal Opportunity Act (Vic) 2010 and related legislation. Master Builders further encourages individuals from all social, racial, cultural and educational backgrounds to apply.

Course structure and duration

Delivery Mode: Blended,

The course is delivered over 2 days or an equivalent period.

Upon successful completion of this course, student will be awarded a Statement of Attainment by **Master Builders Association of Victoria (RTO Provider NO. 3935)** for the following unit:

No.	Units		Delivery days
	Code	Title	
1.	CPCCBC5011A	Manage environmental management practices and processes in building and construction	2

Recognition of Prior Learning (RPL) or Credit Transfer

Recognition of Prior Learning (RPL) involves assessment of any relevant skills and knowledge you have previously gained through learning and work activities (including formal, informal and non-formal) to determine if it matches any unit learning outcomes in the course you are studying. You will need to provide evidence to support your application.

Credit transfer means that if you have already successfully completed a unit of competency, you will be given credit for that unit and you will not have to study it again. The unit code and title must be exactly the same as the one you are seeking credit for. If the unit has been recoded, Master Builder's staff will determine if it is an equivalent unit. You will need Statement/s of Attainment to support your application.

If you decide to apply for RPL or credit transfer, we advise you to do it as soon as possible. The process takes some time and, if it is granted, you may not need to attend some classes.

Contact the Training Department on (03) 9411 4555 to discuss whether either of these pathways might be appropriate for you.

NOTE ON FEES: For information on RPL fees, contact the Training Department on (03) 9411 4555. RPL at Master Builders is not subsidised by Commonwealth and State government funding under the Skills First contract.

There is no charge for Credit Transfer.

Further study opportunities

Students who undertake and complete the Sustainable Construction – Commercial course will be eligible for a National Credit Transfer of one unit of competency towards the completion of the CPC50210 Diploma of Building and Construction (Building). We strongly recommend that students commence study in the CPC50210 Diploma Building and Construction (Building) within 6 – 12 months of completion of the Sustainable Construction – Commercial course.

For more information on all Master Builders courses, contact the Training Department on (03) 9411 4555 or refer to Master Builders' training website on www.mbavtraining.com.au.

Exit opportunities

Some students may decide to exit the course for further foundational learning and content studies if a lack of work experience (years and type) has been identified.
