

OHS Refresher

Course Information Sheet

About the course

This course is designed to provide a refresher of OHS laws and the risk management cycle, with a focus on hazard identification on a construction site. This one-day workshop is suitable if you're looking for a refresher in OHS legislation and how to apply OHS onsite.

Learning outcomes

By the end of this course, you will be able to:

- Implement proactive actions on site to ensure health and safety practices meet legislative requirements
- Understand what Workplace Manslaughter laws mean for you
- Identify the legal responsibilities of Site Managers, Project Managers and Contract Administrators
- Contribute to creating a culture of safety
- Engage in successful consultation
- Explain worker and contractor responsibilities on site
- Discuss OHS hot topics and their potential impacts on site
- Have the confidence to question and raise safety-related issues.

Pre-requisites

This workshop is recommended for people who have completed a Certificate III in Work Health and Safety (or equivalent) and are aware of the fundamentals of OHS legislation.

Course structure and duration

The course is a 1-day session and is deliverable face-to-face in-classroom or online. Upon completion participants will receive a Statement of Attendance in OHS Refresher.
