

SAFE WORK METHOD STATEMENTS (SWMS)

ACCREDITED SHORT COURSE

Is this short course for me?

This accredited SWMS course is for site managers/supervisors, health and safety representatives (HSRs), subcontractor supervisors, leading hands and other employees who:

- Assist in developing SWMS for high risk construction work; or
- Review subcontractor SWMS for compliance.

Learning outcomes

In this course, you will learn:

- What information needs to be in a SWMS
- How to develop a SWMS you can adapt for any construction site
- How to make your SWMS site-specific for every job you do
- What to look for when reviewing a SWMS submitted by a subcontractor
- How to manage compliance with a SWMS on-site.

Course structure

The SWMS course consists of a total of 30 hours including:

- One eight-hour face-to-face training session
- A two-hour remotely assessed assessment task (via Zoom)
- Between 10 and 20 hours of written assessment work, depending on your level of experience.

Successful completion of all training and assessment activities will award the nationally recognised unit of competency *CPCWHS3001 Identify construction work hazards and select risk control strategies*.

Pre-requisites

You must hold a Construction Induction card (White/Red card) and have access to a construction site.
